Subject: Withdrawal of request for board of adjustment

Michael, I am withdrawing my request for a board of adjustment hearing for the hangar lot at the Long Island Airport subdivision. While I have taken a tremendous loss on the property selling it in it's current configuration I found it necessary to proceed with the sale of the property as is. I request a refund of my \$425.00 that you required for the hearing. I will also be asking for reimbursement for such items as attorney fees for the opinion letter your department required and then ignored as well as septic permit fees, survey fees, etc. that were spent as a result of the original approval given by your staff. I will provide you with a detailed statement when I have it compiled.

Best regards,
Jeff Reynolds
